

 DANCEWORKS 114

wedding dances

couples testimonials

steph & ben

'Danceworks were great in helping us come up with choreography for our wedding dance. My partner and I had no idea where to start and we didn't want people to just stand around and watch us sway for 3 minutes! Tia took into account our dancing ability (or lack thereof), and tailored the dance so that it was easy enough for us to practice & execute. It wasn't a matter of her just telling us what to do, we all contributed together to come up with simple moves & steps.

The process was so fun and comfortable'

Tia has been choreographing wedding routines for over 10 years in all styles for many different couples. Having been married herself only recently, she understands the stresses around wedding planning and wants to ensure this dance isn't just another thing on your to-do list. We strive to make this process easy and stress-free for both partners!

\$200.00

4 x 30min sessions

Includes consultation & music editing
